Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Write Common name and family of Drosera.
- b) Give mentalis of Alumina.
- c) Give keynote of Arg. Metallicum.
- d) Write Constitution of Cal. Carb baby.
- e) Write Mania of Stramonium.
- f) Write character of pain in Phytolacca.
- g) Write pathogenesis of Cactus Grandiflorus.
- h) Write vertigo of Conium.
- i) Write thirst and tongue of Nux moschata.
- j) Write Family and Active principles of Opium.
- k) Describe type of injury in Hypenicum.
- l) Write Keynotes of Lachesis.
- m) Write Source and common name of Murex.
- n) Write 5 "P" of Podophyllum.
- o) Write role of Symphytum in fracture.

2. Write short answer (any four out of six) : (4x5=20)
- Write Digitalis in heart comp.
  - Write Aurum met mind.
  - Write Petroleum Skin comp.
  - Write Adonis heart.
  - Write Bufo-Epilepsy.
  - Dioscorea villosa – GIT.
3. Write short answer (any four out of six) : (4x5=20)
- Ferrum met Anaemia.
  - Cantharis UTL.
  - Camphora cholera.
  - Write Graphites skin comp.
  - Write Murex female Comp.
  - Write Lycopodium gastric complaints.
4. Long answer question (any two out of four) : (2x10=20)
- Write Iodum and conium in glands.
  - Write Sepia and Pulsatilla Female complaints.
  - Write Cactus and Tabacum Heart Complaints.
  - Write Staphysagria and Terebinthina Urinary Complaints.
- Long answer question (any one from Q. No. 5, 6 and 7).
5. Long answer question. (1x20=20)  
Describe drug picture of Phosphorus.
6. Long answer question. (1x20=20)  
Describe drug picture of Syphylinum.
7. Long answer question. (1x20=20)  
Drug picture of Nat.Mur.
-

Fourth B.H.M.S. (New) Examination, Summer 2017  
HOMOEOPATHIC MATERIA MEDICA – II

Total Duration : 3 Hours

Total Marks : 100

**Instructions** : 1) Use **blue/black** ball point pen only.

- 2) **Do not** write anything on the **blank portion** of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Write two Remedies for the forcible expulsion of Cough.
- b) Write Eye Complaint's in Apis mellifica.
- c) Write the coryza of Sabadilla.
- d) Write indication of Variolinum in skin complaints.
- e) Write two keynotes of Cedron.
- f) Write characteristic of Lac Can in throat affection.
- g) Give Urinary Complaints in Clematis Erecta.
- h) Write Alternating Symptom's in Abrotanum.
- i) Write the causation of injury in Ledum pal.
- j) Write colicky pain in Colocynth.
- k) Write the tongue and thirst in Ipecacuanha.
- l) Write the cough in Corallium R.
- m) Give respiratory complaint's in Acalypha Indica.
- n) Write toothache in Coffe Cruda.
- o) Write Urinary complaint's in Sarsaparilla.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Write the keynote of Kali Phos.
- b) Write malarial fever in China.
- c) Write mind complaints in Lyssin.
- d) Write Baby of Rheum.
- e) Write Haemorrhoid's in Aesculus Hipp.
- f) Write the Rheumatic complaints with modalities of Rhododendron.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Write the Baby of Aethusa Cyanapium.
- b) Write skin complaints in Antim crud.
- c) Write the Respiratory indications in Stanum Met.
- d) Write Headache in Glonine.
- e) Write Baby of Mag. Carb.
- f) Write characteristic of Diarrhoea in Argentum Nitricum.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Compare Haemorrhoid's of Aloes Socotrina and Ratannia.
- b) Compare Baby of Cina and Abrotanum.
- c) Compare skin complaint's between Silicea and Mezerinum.
- d) Compare Urinary Complaint's of Apis Mellifica and Sarsaparilla.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Define Homoeopathic Materia Medica , various types with examples and utility.

6. Long answer question :

(1×20=20)

Write in details the drug picture of Bryonia Alba.

7. Long answer question :

(1×20=20)

Write in details the drug picture of Psorinum.

04802 A

2. Write short answer (**any four** out of six) : (4×5=20)
- Indication of Hepar Sulph in Acute bronchitis.
  - Indication of Acetic acid in Anasarca.
  - Indications of Rhus Tox in measles.
  - Indications of Ferum Met in Megaloblastic anemia.
  - Indications of Merc sol in Crohns disease.
  - Indications of Apis mellifica in type 1 hypersensitivity reaction.
3. Write short answer (**any four** out of six) : (4×5=20)
- Indications of calcarea phos osteomalacia.
  - Indications of crotalus horridus in kala azar.
  - Indications of Iodum in hypothyroidism.
  - Indications of cardus mar in splenomegaly.
  - Indications of Agaricus in frost bite.
  - Indications of Phosphorous in Tuberculosis.
4. Long answer question (**any two** out of four) : (2×10=20)
- Write indications of crataegus and cactus Grandi in cardiac affection.
  - Write down indications of Cuprum met and Nux vomica in convulsions.
  - Write down indications of Arsenic album and Apis mellifica in acute renal failure.
  - Indications of Ledum pal and colchicum in Gout .

Long answer question (**any one** from Q. No. 5, 6 and 7)

5. Long answer question : (1×20=20)  
Write homeopathic approach in the treatment of Migraine with respect to its Scope and limitations, Acute prescribing, Chronic prescribing and its Auxillary measures with indications of two homeopathic remedies
6. Long answer question : (1×20=20)  
Write homeopathic approach in the treatment of Hypertension with respect to its Scope and limitations, acute prescribing, chronic prescribing, auxillary measures and indications of two important remedies in the same.
7. Long answer question : (1×20=20)  
Write homeopathic approach in the treatment of Rheumatoid arthritis with respect Scope and limitations. Aacute prescribing, chronic prescribing and auxillary measures. Give indications of Ruta and Rhus tox for the same.

04801 B

Fourth B.H.M.S. (New) Examination, Winter 2017  
PRACTICE OF MEDICINE – II

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever necessary**.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Four causes of Low back pain.
- b) Define Reiter's Syndrome.
- c) Causative organisms of Infective Endocarditis.
- d) What is Atherosclerosis and its two causes ?
- e) Four causes of cardiomegaly.
- f) Define Partial Seizure and give its type.
- g) Define Tension headache and two causes of it.
- h) Define Haematuria and give two causes.
- i) Four causes of Chronic Renal failure.
- j) Types of Congenital non-haemolytic jaundice.
- k) Four causes of dehydration.
- l) Define Obsessive compulsive Disorder.
- m) Four causes of infantile diarrhoea.
- n) Define herpes zoster and write its causative organism.
- o) Diagnostic Signs of Psoriasis.

P.T.O.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Acute Pyelonephritis.
- b) Viral Hepatitis.
- c) Anxiety nervosa. *Anorexia*
- d) Urticaria.
- e) Megaloblastic Anaemia.
- f) Angina Pectoris.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Parkinson's Disease.
- b) Nephrotic Syndrome.
- c) Discuss Atopic Dermatitis.
- d) Depression.
- e) Cirrhosis of Liver.
- f) Discuss Osteoporosis.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Describe Lichen Planus in detail.
- b) Aetiology, clinical features and complications of Acute Renal Failure.
- c) Describe Schizophrenia.
- d) Aetiology and clinical features of Acute Rheumatic Fever.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Write the Aetiology, clinical features, investigation and Complications of Meningitis.

6. Long answer question :

(1×20=20)

Write Aetiology, Clinical Features, Investigation and Complication Mitral valve disease.

7. Long answer question :

(1×20=20)

Write Aetiology, Clinical Features, Diagnosis and management of Gout.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (**any ten** out of fifteen) :

(10x2=20)  
30

- a) Write any two clinical features of pleural effusion.
- b) Write any two clinical features of pharyngitis.
- c) Write any two clinical features of acute bronchitis.
- d) Write any two clinical features of measles.
- e) Write any two clinical features of malaria.
- f) Define constipation.
- g) Write any two causes of hematemesis.
- h) Define reflux Oesophagitis.
- i) Mention any two clinical conditions of vitamin A deficiency.
- j) Mention cause of scurvy.
- k) Mention any two causes of splenomegaly.
- l) Define diabetes mellitus.
- m) Write any two clinical features of cushing syndrome.
- n) Define goitre.
- o) Mention any two immunological disorders.

2. Write short answer (**any four** out of six) : (4x5=20)
- Write short note on sleep apnoea.
  - Define Ricket.
  - Addison's disease.
  - Define Ascitis with its signs.
  - Define Down's syndrome With clinical feature.
  - Define Toxoplasmosis.

3. Write short answer (**any four** out of six) : (4x5=20)
- Define Pneumothorax.
  - Discuss Vitamin K deficiency.
  - Define Hypoglycemia.
  - Define Dysphagia and its causes.
  - Define Hypersplenism.
  - Discuss Myositis.

4. Long answer question (**any two** out of four) : (2x10=20)
- Describe vitamin A deficiency disorders.
  - Describe Hodgkin's disease.
  - Write causation, clinical features and investigations of Dengue.
  - Describe in detail about lung abscess.

Long answer question (**any one** from Q. No: 5, 6 and 7) :

5. Long answer question : (1x20=20)

Describe Crohn's disease under following heads Aetiology, Clinical features, Investigations and Complications.

6. Long answer question : (1x20=20)

Describe Hypothyroidism under following heads Aetiology, Clinical features, Investigations and Complications.

7. Long answer question : (1x20=20)

Describe whooping cough under following heads Aetiology, Clinical features, Investigations and Complications.

As it is only for the placement sake, the distribution has been done.

1. Write short answer (**any ten** out of fifteen) :

(10×2=20)

- a) Write two characteristic features of Natrum sulph in Asthma.
- b) Write two characteristic features of Bryonia alb in pleurasy.
- c) Write two characteristic features of Hepar sulph for cough.
- d) Write two characteristic features of pulsatilla in Measles.
- e) Write two characteristic features of Mercurius in Mumps.
- f) Write two characteristic features of lycopodium in hepatitis.
- g) Write two characteristic features of nux vomica in gastritis.
- h) Write two characteristic features of berberis v in gall stone.
- i) Write two characteristic features of ferrum met in iron deficiency anaemia.
- j) Write two characteristic features of natrum mur in marasmus.
- k) Write two characteristic features of calcarea carb in obesity.
- l) Write two characteristic features of China in splenomegaly.
- m) Mention names of any four remedies indicated for hypothyroidism.
- n) Write two characteristic features of calcarea phos in rickets.
- o) Write two characteristic features of glonoine in heat stroke.

P.T.O.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Write indications of Arsenic alb in asthma.
- b) Write indications of Natrum mur in hyponatremia.
- c) Write indications of pulsatilla in mumps.
- d) Write indications of Sanicula for marasmus.
- e) Write indications of Nux vom for Gastritis.
- f) Write indications of China for splenomegaly.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Write indications of Ferrum met for iron deficiency anaemia.
- b) Write indications of Baptisia for typhoid fever.
- c) Write indications of natrum mur in hypothyroidism.
- d) Write indications of Calcarea carb for lymphadenopathy.
- e) Write indications of Natrum carb for heat stroke.
- f) Write indications of Bryonia alb in pleurisy.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Indications of Digitalis and Cactus G in cardiovascular diseases.
- b) Indications of Bufo R and Cicuta v in epilepsy.
- c) Indications of Berberis v and sarsaparilla in kidney diseases.
- d) Indications of Colchicum and ledum pal in rheumatic complaints.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question.

(1×20=20)

Write homoeopathic approach in the treatment of meningitis under following headings.

- a) Scope and limitation
- b) Acute prescribing
- c) Chronic prescribing
- d) Auxillary/Preventive measures and Indication of two important remedies for the same.

6. Long answer question

(1×20=20)

Write homoeopathic approach in the treatment of angina pectoris under following headings.

- a) Scope and limitation
- b) Acute prescribing
- c) Chronic prescribing
- d) Auxillary/Preventive measures and indication of two important remedies for the same.

7. Long answer question

(1×20=20)

Write homoeopathic approach in the treatment of osteoarthritis under following headings.

- a) Scope and limitation
  - b) Acute prescribing
  - c) Chronic prescribing
  - d) Auxillary / Preventive measures and indication of two important remedies for the same.

1. Write short answer (any ten out of fifteen) : (10×2=20)
- a) What is Nasal Lupus ?
  - b) Mention any four causes of cough with wheezing.
  - c) Define Bronchiectasis.
  - d) Mention Causative Organism of Influenza and types of it.
  - e) Mention Causative Organism of Tetanus with two clinical features.
  - f) Mention Four Causes of acute abdominal pain.
  - g) Define Microglossia and mention two causes of it.
  - h) Define Palmar Erythema and Mention four causes of it.
  - i) Define Scurvy and Mention causes of it.
  - j) Four causes of hyponatraemia.
  - k) Define hypoglycaemia and Four clinical features of it.
  - l) Mention four complications of obesity.
  - m) Define Goutre and Mention types of it.
  - n) Define Hirsutism and mention four causes of it.
  - o) Define frost bite.

P.T.O.

2. Write short answer (any four out of six) : (4×5=20)

- Causes of Haemoptysis.
- Anorexia nervosa.
- Beriberi.
- Causes of ascites.
- Hodgkins disease.
- Chicken Gunya.

3. Write short answer (any four out of six) : (4×5=20)

- Define dyspnoea and causes of it.
- Hypothermia.
- Down syndrome.
- Cardiospasm or Achalasia of the cardia.
- Causes of splenomegaly.
- Pyrexia of unknown origin.

4. Long answer question (any two out of four) : (2×10=20)

- What is Rickets? Write aetiology, clinical features, and complications of it.
- What is Cholecystitis ? Describe its aetiology, causes, clinical features of it.
- What is Measles ? Discuss in detail.
- Discuss diagnostic criteria of Lung Abscess, its investigations, clinical features and complications.

Long answer question (any one from Q. No. 5, 6 and 7).

5. Long answer question :

Describe in detail about aetiology, clinical features, investigations and general management of Irritable bowel syndrome. (1×20=20)

6. Long answer question :

What is Diabetes mellitus ? Write types, aetiology, clinical features, complications, investigations of it. (1×20=20)

7. Long answer question :

What is typhoid fever ? Write clinical features, investigations, complications, and D/D of Enteric fever. (1×20=20)

**Fourth B.H.M.S. (New) Examination, Winter 2018  
PRACTICE OF MEDICINE – III**

1. Write short answer (any ten out of fifteen) : (10x2=20)
- a) Characteristics of Antim. Tart in Bronchial Asthma.
  - b) Characteristics of Phosphorus in Pneumonia.
  - c) Characteristics of Ars. Album in Allergic rhinitis.
  - d) Name two remedies for Cholera.
  - e) Name two remedies for Pertussis.
  - f) Two remedies for Flatulent Colic.
  - g) Characteristics of Iris Vercicular in Digestive system.
  - h) Name two remedies for Malnutrition.
    - i) Two remedies for Anaemia.
    - j) Two remedies for bleeding gums.
  - k) Two remedies for Toxic Goller.
  - l) Characteristics of Ceanothus in Spleen disorder.
  - m) Characteristics of Baryta Carb in Hypothyrodism.
  - n) Characteristics of Bryonia in Hepatitis.
  - o) Characteristics of weather symptoms in Nat.Sulph.

2. Write short answer (any four out of six) :

(4×5=20)

- Describe Ipecacuanha in Bronchial Asthama.
- Describe Verat. Alb. in Diarrhoea.
- Describe Mephitis Putorious in Whooping Cough.
- Describe Calcaria Phos in Nutritional Disorder.
- Describe Rhus Tox in Appendicitis.
- Describe Iodium in Gladular involvement.

3. Write short answer (any four out of six) :

(4×5=20)

- Nat. Mur in Nutritional Disorder.
- Calcaria Carb in Hypocalcemia.
- Spongia in Thyroid disorder.
- Silica in Lymphatic disorder.
- Glonine in Sunstroke.
- Sanguinaria in Chronic Bronchitis.

4. Long answer question (any two out of four) :

(2×10=20)

- Discuss Naja and Lachesis in Cardiac Complaints.
- Discuss Causticum and Ledum pal in Nervous complaints.
- Discuss Sarsaparilla and Apocynum Cannabinum in Urinary complaints.
- Discuss Rhus Tox and Kalmia in Rheumatic complaints.

Long answer question (any one from Q. No. 5, 6 and 7)

5. Long answer question :

(1×20=20)

Describe meningitis in scope and limitation, Acute prescribing and Chronic prescribing, auxiliary/preventive measures, indication of two homeopathic remedies for the same.

6. Long answer question :

(1×20=20)

Describe hypertension in scope and limitation, Acute prescribing and Chronic prescribing, auxiliary/preventive measures, indication of two homeopathic remedies for the same.

7. Long answer question :

(1×20=20)

Describe rheumatoid arthritis with scope and limitation, Acute prescribing and Chronic prescribing, auxiliary/preventive measures, indication of two homeopathic remedies for the same.

**Fourth B.H.M.S. (New) Examination, Winter 2018  
PRACTICE OF MEDICINE – II**

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Mention causes of Iron deficiency anaemia.
- b) 4 Causes of Splenomegaly.
- c) Mention 4 causes of Tachycardia.
- d) Mention 4 causes of Secondary Hypertension.
- e) Mention types of heart block.
- f) Mention 4 causes of Tremor.
- g) Mention four causes of Hemiplegia.
- h) Mention four causes of Hematuria.
- i) Define Staghorn Calculi and its cause.
- j) Mention four causes of Cirrhosis of liver.
- k) Mention precipitating factor for Hepatic Encephalopathy.
- l) Define Delirium and give its 2 causes.
- m) Mention four causes of Dementia.
- n) Causative organism of Scabies and 2 clinical features of it.
- o) Types of Eczema.

2. Write short answer (any four out of six) : (4x5=20)
- Acute renal Failure.
  - Hepatic Failure.
  - Infantile Diarrhoea.
  - Urticaria.
  - Polycythemia Vera.
  - Aortic Stenosis.
3. Write short answer (any four out of six) : (4x5=20)
- Parkinson's Disease.
  - Nephrotic Syndrome.
  - Vitiligo.
  - Cerebral Palsy.
  - Ascites.
  - Sickle Cell Anaemia.
4. Long answer question (any two out of four) : (2x10=20)
- Describe Psoriasis.
  - Describe Glomerulonephritis.
  - Describe Schizophrenia.
  - Describe Infective Endocarditis.

Long answer question (any one from Q. No. 5, 6 and 7)

5. Long answer question : (1x20=20)  
Describe in detail causes, clinical features, investigation, complications of Epilepsy.
6. Long answer question : (1x20=20)  
Describe mitral valve diseases with its causes, Clinical features, Investigation and complications.
7. Long answer question : (1x20=20)  
Describe in detail Pathogenesis, clinical Features, Investigations, complications of Osteoarthritis.
-

1. Write short answer (any ten out of fifteen) : (10×2=20)
- a) Four clinical features of Pulmonary Tuberculosis.
  - b) Write four causes of Cough.
  - c) Define Haemoptysis and give its two etiology.
  - d) In which disease rose red rash occur and give two clinical feature of same disease.
  - e) Name the causative Organism of Poliomyelitis with two important clinical features.
  - f) Write four symptom of irritable bowel syndrome.
  - g) Define hematemesis and give its two etiology.
  - h) Write four causes of stomatitis.
  - i) Write four clinical feature of scurvy.
  - j) Define osteomalacia and give its two clinical features.
  - k) What is Nelson's Syndrome ?
  - l) Define Pheochromocytoma and give its two clinical feature.
  - m) What is Hyperthyroidism and give the normal value of T3, T4, TSH ?
  - n) Write four differential diagnosis of chronic Splenomegaly.
  - o) Write four clinical features of Frost bite.

P.T.O.

2. Write short answer (any four out of six) : (4×5=20)
- Write a short answer on bronchiectasis.
  - Describe clinical feature's of hypocalcaemia.
  - Describe clinical feature's of Diabetes Insipidus.
  - Write etiology and clinical features of Acute Pancreatitis.
  - Write complications and management of Hyperthermia.
  - Write clinical feature's and complications of Rabies.

3. Write short answer (any four out of six) : (4×5=20)
- Mention symptoms of Tropical Eosinophilia and its management.
  - Explain in short Xerophthalmia.
  - Write in short Hirsutism.
  - Write causes of acute abdominal pain.
  - Clinical feature's of Turner Syndrome.
  - Write in brief about AIDS.

4. Long answer question (any two out of four) : (2×10=20)
- Describe Obesity with respect to its aetiology, clinical features and complications.
  - Describe in details differential Diagnosis of Lymphadenopathy.
  - Describe in details about Typhoid, with emphasis on aetiology, clinical features and treatment.
  - Explain in details about Lung Cancer with respect to aetiology, clinical features and complications.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question : (1×20=20)  
Write in detail about Peptic Ulcer Disease and its, aetiology, clinical, feature, investigations, management.
6. Long answer question : (1×20=20)  
Write in detail about Diabetes Mellitus, aetiology, clinical feature, complications, management.
7. Long answer question : (1×20=20)  
Write in detail about Dengue, aetiology and types, clinical features, complications, management and prevention.

04804

**Fourth B.H.M.S. (New) Examination, Summer 2017  
CASE TAKING AND REPERTORY**

Total Duration: 3 Hours

Total Marks: 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
