1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Write Ailments from and modalities of Iodum pal.
- b) Write common name and family of Rhus tox.
- c) Write two characteristic symptoms of Allium cepa.
- d) Write two guiding indications of Arnica.
- e) Write Ailments from and Modalities of Dulcamara.
- f) Write Thirst and Tongue of Nux Moschata.
- g) Write common name and family of Gelsemium.
- h) Write two characteristics of Digitalis.
- i) Write down the common name and family of Arum Triphyllum.
- j) Write two characteristic symptoms of cactus G.
- k) Write two characteristic features of Baryta Carb Throat.
- l) Write two guiding indications of Thalapsi Bursa.
- m) Write Ailments from and urinary complaints of Zincum met.
- n) Write two guiding indications of Hypericum.
- o) Write two key notes of Picric acid.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Bryonia - Headache
- b) Colchicum - Joint complaints.
- c) Bromium - Respiratory complaints.
- d) Hepar sulph - Skin complaints.
- e) Borax - female complaints.
- f) Helliborus - guiding symptoms.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Adonis vernalis - Heart complaints.
- b) Asafoetida - Physical general complaints.
- c) Equisetum - Urinary complaints.
- d) Tabacum - guiding symptoms.
- e) Dioscorea - Guiding indications
- f) Caladium - Male genitalia symptoms.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Compare female of Sepia and Murex.
- b) Compare Respiratory complaints of Ipecac and Antim Tart.
- c) Compare Skin of Graphites and Sulphur.
- d) Compare headache of Belladonna and Natrum Mur.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Write in detail drug picture of Aconite.

6. Long answer question :

(1×20=20)

Write in detail drug picture of Lycopodium.

7. Long answer question :

(1×20=20)

Write in detail drug picture of Pulsatilla.

Third B.H.M.S. (New) Examination, Winter 2017
HOMOEOPATHIC MATERIA MEDICA

- e) Nat sulph in Neonatal jaundice.
- f) Enumerate 4 causes of subinvolution of uterus.
- g) Indications of Lecithin in agalactia.
- h) Veratrum viride in pre-eclampsia.
- i) Cephalhaematoma.
- j) Lactic acid in vomiting in pregnancy.
- k) Enumerate 4 remedies for abortion in the third month of pregnancy.
- l) Velamentous placenta.
- m) Enumerate 4 signs of pregnancy in the first trimester.
- n) Enumerate the functions of amniotic fluid.
- o) Write a note on placenta succenturiata.

P.T.O.

2. Write short answer (any four out of six) :

(4×5=20)

- USG in Obstetrics.
- Placenta praevia.
- Indications of LSCS.
- Threatened abortion.
- Episiotomy.
- Ophthalmia neonatorum.

3. Write short answer (any four out of six) :

(4×5=20)

- Indications of Bryonia & Phytolacca in mastitis.
- Indications of Cicuta and Cuprum met in eclampsia during pregnancy.
- Indications of Carbo veg & Ant tart in Asphyxia neonatorum.
- Indications of Ferrum phos & Nat mur in anaemia during pregnancy.
- Indications of Pyrogen and Baptisia in Puerperal pyrexia.
- Indications of Phosphorus and Arsenic album in diabetes during pregnancy.

4. Long answer question (any two out of four) :

(2×10=20)

- Define puerperal psychosis, write its clinical presentation and indications of Belladonna and Pulsatilla for the same.
- Define Hyperemesis gravidarum, mention its causes and complications. Write role of homeopathy in managing a case of hyperemesis gravidarum with the help of Ipecac and Nux vomica.
- Define post partum haemorrhage, write its causes and indications of Sabina and Erigeron for the same.
- Define abortion, write its various types, write a note on role of homeopathy in abortion with the help of indications of Sepia and Secal cor for the same.

Long answer question (any one from Q. No. 5, 6, and 7) :

Long answer question :

5. Define Antenatal care, write its aims & objectives, write indications of 2 homeopathic remedies for constipation during pregnancy, emesis gravidarum and varicose veins during pregnancy with the help of each condition.

(1×20=20)

Long answer question :

6. Describe aetiology, clinical features, diagnosis, complications & management of Twin pregnancy.

(1×20=20)

Long answer question :

7. Define healthy newborn infant, write its clinical features in detail and also mention the neonatal reflexes. Write the indications of 2 homeopathic remedies for agalactia.

(1×20=20)

04702 C

Third B.H.M.S. (New) Examination, Summer 2018
OBSTETRICS AND GYNAECOLOGY - III

Total Duration : 3 Hours

Total Marks : 100

Instructions : 1) Use *blue/black ball point pen only*.

2) *Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.*

3) *All questions are compulsory.*

4) *The number to the right indicates full marks.*

5) *Draw diagrams wherever necessary.*

6) *Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.*

1. Write short answer (any ten out of fifteen) :

(10x2=20)

a) Ailments from of Nux vomica for vomiting in Pregnancy.

b) Mag phos for Dysmenorrhoea.

c) Causticum for Retention of Urine after labour.

d) Kail carb for amenorrhoea.

e) Four remedies for Endometriosis.

f) Four remedies for Dyspareunia.

g) Nitric acid for Rectovaginal fistula.

h) Kreosotum for Pruritus Vulvae.

i) Apis mellifica for Vaginitis.

j) Lecithin for agalactia.

k) Calc carb for leucorrhoea.

l) Enumerate 4 remedies for abortion in the third month of pregnancy.

m) Enumerate 2 remedies for adherent placenta.

n) Fraxinus americana for prolapse uterus.

o) Enumerate 2 remedies for asphyxia neonatorum.

P.T.O.

(4×5=20)

2. Write short answer (any four out of six) :
- Lachesis in Climaxis.
 - Medorrhinum in Pelvic infections.
 - Pyrogen for Puerperal fever.
 - Veratrum album for Puerperal Psychosis.
 - Ustilago for menorrhagia.
 - Belladonna for mastitis.

(4×5=20)

3. Write short answer (any four out of six) :
- Two remedies with indications for Jaundice in new born.
 - Two remedies with indications for Anaemia in Pregnancy.
 - Arsenic album and Conium for Cervical erosion.
 - Aurum met and Coffea for infertility.
 - Cantharis and Sabina for Hydatidiform mole.
 - Opium and Helleborus in Convulsions in new born.

(2×10=20)

4. Long answer question (any two out of four) :
- Cicuta and Cuprum met for eclampsia.
 - Antimony tart and Laurocerasus for asphyxia neonatorum.
 - Ipecac and Sepia in Hyperemesis gravidarum.
 - Platina and Trillium Pendulum for Metrorrhagia.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Define fibroid uterus and write a note on management of fibroid with the help of 3 homeopathic remedies.

6. Long answer question :

(1×20=20)

Define abortion, write a note on management of abortion and write indications of 3 homeopathic remedies for abortion.

7. Long answer question :

(1×20=20)

Define amenorrhoea and write the role of Pulsatilla, Conium, Senecio and Calo Carb for Amenorrhoea.

Third B.H.M.S. (New) Examination, Summer 2018
OBSTETRICS AND GYNAECOLOGY – I

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full marks**.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Enumerate signs of onset of labour.
- b) Urine pregnancy test.
- c) Define presentation and lie of the fetus.
- d) Enumerate functions of the fetal membranes.
- e) Enumerate 4 causes of hyperemesis gravidarum.
- f) Umbilical cord.
- g) Dystocia.
- h) Functions of placenta.
- i) Causes of haemorrhages in early pregnancy.
- j) Complications of forcep delivery.
- k) Indications of episiotomy.
- l) Conjoined twins.
- m) Enumerate benefits of breast feeding.
- n) Apgar score.
- o) Define preterm and postterm delivery.

2. Write short answer (any four out of six) : (4×5=20)
- a) Hegars sign.
 - b) Threatened abortion.
 - c) Classification of placenta praevia.
 - d) Methods of MTP in the second trimester.
 - e) Lochia.
 - f) Ophthalmia neonatorum.

3. Write short answer (any four out of six) : (4×5=20)
- a) Missed abortion.
 - b) Retained placenta.
 - c) Deep transverse arrest.
 - d) Abruptio placenta.
 - e) Polyhydramnios.
 - f) Jaundice in newborn.

4. Long answer question (any two out of four) : (2×10=20)
- a) Explain diagnosis of pregnancy in detail.
 - b) Define normal labour and write its mechanism in detail.
 - c) Write the indications, types, procedure and complications of Caesarean section.
 - d) Define a preterm infant, write its clinical feature, management and complications in detail.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :
Define pre eclampsia, write its clinical features, investigations, complications and management with 2 homoeopathic remedies in detail. (1×20=20)
6. Long answer question :
Describe breech delivery in detail. (1×20=20)
7. Long answer question :
Define asphyxia neonatorum, write its causes, clinical features, complications and management with the help of 2 homoeopathic remedies in detail. (1×20=20)

As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- Caladium in pruritus vulva.
- Coffea in vaginismus.
- Borax in leucorrhoea.
- Mag phos in dysmenorrhoea.
- Hepar sulph in pelvic abscess.
- Bryonia in mastitis in ~~infertility~~.
- Baptisia in puerperal sepsis.
- Aletris farinosa in bleeding. *hyper*
- Ipecac in emesis gravidarum.
- Collinsonia in piles during pregnancy.
- Erigeron in menorrhagia.
- Natrum mur in puberty.
- Belladonna in mastitis.
- Phytolacca breast disorders.
- Alumina in leucorrhoea.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Calc carb in uterine polyp.
- b) Silicea in pelvic abscess.
- c) Podophyllum in prolapse of uterus.
- d) Senecio in puberty.
- e) Arsenic album in hyperemesis gravidarum.
- f) Sabina in incomplete abortion.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Lecithin and Urtica urens in agalactia.
- b) Kali carb in pelvic inflammatory disease.
- c) China in anaemia during pregnancy.
- d) Lilium tig in prolapse of uterus.
- e) Staphysagria in post caesarian cases.
- f) Argentum nitricum in ophthalmia neonatorum.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Define post partum haemorrhage and management for post partum haemorrhages with Erigeron, Ustilago and Belladonna.
- b) Discuss role of Pulsatilla and Cimicifuga in puerperal psychosis.
- c) Explain Kreosote and Medorrhinum in chronic pelvic infections.
- d) Write down indication of Phosphorous and Secale cor in dysfunctional uterine bleeding.

Long answer question (any one from Q. No. 5, 6 and 7)

5. Long answer question :

(1×20=20)

Write the indications of Kali carb, Senecio, Cimicifuga and Lycopodium in puberty.

6. Long answer question :

(1×20=20)

Write the indications of Apis, Lycopodium, Glonoine and Gelsemium in pre eclampsia.

7. Long answer question :

(1×20=20)

Write the indications of Sabina, Trillium pendulum, Phosphorus and Ustilago in menorrhagia.

Third B.H.M.S. (New) Examination, Winter 2018
OBSTETRICS AND GYNAECOLOGY – II

Total Duration : 3 Hours

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Bartholins cyst-def.
- b) Bicornuated uterus-def.
- c) Culdocentesis.
- d) Cryptomenorrhoea-def.
- e) Senile Vaginitis.
- f) Pyometra-def.
- g) 4 c/f in Pelvic abscess.
- h) Mittelschmerz syndrome.
- i) Teratospermia.
- j) Any 2 Indications of vaginal hysterectomy.
- k) Cervical Polyp-def.
- l) Adenomyosis-def.
- m) Wernick's encephalopathy.
- n) 2 advantages of Tubectomy.
- o) Hysterosalpingography-def.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Oligospermia.
- b) O Stage carcinoma.
- c) Pruritus vulvae.
- d) Advantages and disadvantages of oral contraceptive pills.
- e) Natural methods of contraceptions.
- f) USG in gynaecology.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Intrauterine contraceptive device.
- b) Endometritis.
- c) Retroversion of uterus.
- d) Barrier methods of contraception.
- e) Intrauterine insemination.
- f) Physiology of menstruation.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Define menopausal syndrome. Explain with causes, c/f, management.
- b) Explain Ca Cervix with classification, stages, c/f, diagnosis and management.
- c) Fistula.
- d) Dysfunctional uterine bleeding.

Long answer question (any one from Q. No. 5, 6 and 7)

5. Long answer question :

(1×20=20)

Define Uterine Prolapse with aetiology, clinical features, investigations and management.

6. Long answer question :

(1×20=20)

Define Amenorrhoea with types, aetiology, investigations and management.

7. Long answer question :

(1×20=20)

- * Define Fibroid of uterus with aetiology, secondary changes, clinical features and management.
-

syllabus within the stipulated frame. The Question paper pattern is a
mere guideline. Questions can be asked from any paper's syllabus
into any question paper. Students cannot claim that the Question is
out of syllabus. As it is only for the placement sake, the distribution
has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- Define Health.
- What is meant by genius of medicine ?
- Name the routes of administration of Homoeopathic medicine.
- Massage.
- Write advantages of 50 millisimal potency.
- What is importance of particular circumstances in chronic diseases ?
- Management of accessory symptoms of medicine.
- What is difference between mental symptom and mental state ?
- Causes of acute diseases.
- Primary Action.
- Define second prescription with its types.
- Suspended Animation.
- Primary manifestations of miasms.
- Materia peccans.
- Give considerations of choice of the dose.

P.T.O.

2. Write short answer (any four out of six) :

(4×5=20)

- Unprejudiced Observer.
- Repetition of doses according to 6th edition.
- Intermittent fevers.
- Antipathy.
- Homoeopathic aggravation and its management.
- What happens when two diseases meet together?

3. Write short answer (any four out of six) :

(4×5=20)

- Killer's observation.
- Law of simplex.
- Constitution.
- Mind of sycosis.
- Common and uncommon symptoms.
- Antidote.

4. Long answer question (any two out of four) :

(2×10=20)

- Write in detail guideline given by Dr. Hahnemann while taking the case.
- Explain in detail actions of medicines.
- Write on temperaments and its types according to Dr. H. A. Robert.
- Role of local applications in homoeopathic practice.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Explain theory of drug proving in detail.

6. Long answer question :

(1×20=20)

Write on one-sided diseases, its classification, with its managements of each types.

7. Long answer question :

(1×20=20)

Write on simple substance according to Dr. J. T. Kent.

04314

Third B.H.M.S. (2015) Examination, Summer 2018
ORGANON OF MEDICINE

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.

 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10x2=20)

- a) Write 4 qualities of a good prover.
- b) Define Idiosyncrasy.
- c) Write the cause of secondary action during drug proving.
- d) Which medicine has Hahnemann advised in case of intermittent disease to break the intermittency ?
- e) Write two indications for negative pass in Mesmerism.
- f) When does aggravation occur for the cure of chronic case ?
- g) Define one sided diseases.
- h) Give 2 reasons why local applications are not allowed ?
- i) Who said, "Beginners, of course, are obliged to rely very largely upon the repertories."
- j) Define individualisation according to Kent.
- k) Define Susceptibility.
- l) Law of Least Plus.
- m) According to Roberts what kind of symptoms are most frequently voiced by the patient ?
- n) One condition where local application of potentised medicine is allowed.
- o) Give 2 examples of obstacle to cure.

P.T.O.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Precautions followed by prover
- b) Advantages of Drug proving in Homoeopathy
- c) Indisposition
- d) One sided disease
- e) Intermittent fevers
- f) 50 millesimal potency.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Fixed Principles according to Kent
- b) Record Keeping according to Kent
- c) Value of Symptoms according to Kent
- d) Subjective symptoms according to Stuart Close
- e) Auxiliary symptoms according to Roberts
- f) Roberts' view on Temperaments.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Discuss the Evolution of Homoeopathic therapeutics according to Roberts.
- b) Discuss Potentiation and Infinitesimal Dose according to Stuart Close.
- c) Explain aphorism 3 in detail regarding the knowledge of Physician.
- d) Discuss modus operandi of Homoeopathic Cure.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Define Remedy Reaction. Describe in detail various aggravations.

6. Long answer question :

(1×20=20)

Describe in detail the mental diseases with their types and management for cure.

7. Long answer question :

(1×20=20)

Discuss in detail Hahnemannian classification of diseases.

Third B.H.M.S. (New) Examination, Winter 2018
ORGANON OF MEDICINE

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Write two keynote indications of Kali Bich in gastric ulcer.
- b) Write two keynote indications of Plumbum met in abdominal colic.
- c) Write two keynote indications of Amica in haemorrhage.
- d) Write two keynote indications of Hepar sulph in injury.
- e) Write two keynote indications of Hydrastis in Ca. breast.
- f) Write two keynote indications of Silicea in cyst.
- g) Write two keynote indications of Borax in apthous ulcer.
- h) Write two keynote indications of Plantago in toothache.
- i) Write two keynote indications of Ruta in fracture.
- j) Write two keynote indications of Pulsatilla in sty.
- k) Write two keynote indications of Euphrasia in conjunctivitis.
- l) Write two keynote indications of Conium in meniere's disease.
- m) Write two keynote indications of Natrum sulphuricum in otitis media.
- n) Write two keynote indications of allium cepa in maxillary sinusitis.
- o) Write two keynote indications of Belladonna in acute pharyngitis.

P.T.O.

2. Write short answer (any four out of six) :

(4×5=20)

- Define abscess. Give indications of Silicea.
- Define gastritis. Give indications of Nux vomica.
- Define goitre. Give indications of Iodum.
- Define dental caries. Give indications of Kreosotum.
- Indications of Rhus tox in Ligament injury.
- Indications of Phytolacca in follicular tonsillitis.

3. Write short answer (any four out of six) :

(4×5=20)

- Indications of Colocynth in intestinal obstruction.
- Indications of Asteria Rubens in breast abscess.
- Indications of Merc.sol in pyorrhoea.
- Indications of in Gelesimum in eye disorders.
- Indications of Ammonium carb.in epistaxis.
- Indications of Capsicum in mastoiditis.

4. Long answer question (any two out of four) :

(2×10=20)

- Write indications of Urtica urens, cantharis in burns.
- Discuss scope of homoeopathy in chondrochondritis and name two homoeopathic drugs with keynote indication.
- Define ophthalmia neonatorum. Give homo.management with indication of two drugs.
- Define Quinsy. Give hom.management with indication of two drugs.

Long answer questions (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Define haemorrhoids. Give indications of Aesculus hip, Aloes Socratina, Hammamelis and Ratania.

6. Long answer question :

(1×20=20)

Define gangrene. Write indications of Arsenicum alb, Carbo veg, Sulpher, sec.com.

7. Long answer question :

(1×20=20)

Define Nasal polyp and Write scope of hom. in management of nasal polyp, also write indications of Sanguinaria Can and Sabadilla.

As it is only for the placement sake, the distribution has been done.*

1. Write short answer (**any ten** out of fifteen) :

(10×2=20)

- a) Cullen's sign.
- b) Murphy's triad.
- c) Define Haemorrhoids and give it's types.
- d) Types of Cholelithiasis.
- e) Define torticollis.
- f) Define achalasia cardia.
- g) Define leucoplakia.
- h) Four causes of dental caries.
 - i) Tennis elbow.
 - j) Osteogenesis imperfecta.
- k) Define scoliosis.
- l) Define otosclerosis.
- m) Four causes of Acute Pharyngitis.
- n) Rhinitis sicca.
- o) Two causes of Hoarseness of Voice.

2. Write short answer (**any four** out of six) : (4×5=20)
- a) Acute Pancreatitis.
 - b) Discuss in detail chronic gastric ulcer.
 - c) Stove-in chest.
 - d) Dental formula.
 - e) Colles's fracture.
 - f) Otomycosis.
3. Write short answer (**any four** out of six) : (4×5=20)
- a) Direct inguinal hernia.
 - b) Cystic hygroma.
 - c) Dental attrition.
 - d) Osteomyelitis.
 - e) Acute Rhinosinusitis.
 - f) Direct and indirect Laryngoscopy.
4. Long answer question (**any two** out of four) : (2×10=20)
- a) 12 years female complaining of pain in right iliac fossa since 2 days. Discuss in detail Differential diagnosis for the same.
 - b) Discuss in detail Tumours of Mammary gland.
 - c) Define Osteoarthritis. Give its aetiology, patho-physiology, investigations and management.
 - d) Discuss about aetiology, clinical features, types, investigations and management of Acute Tonsillitis.

Long answer question (**any one** from Q. No. 5, 6 and 7) :

5. Long answer question : (1×20=20)
Discuss Benign Prostatic Hypertrophy with aetiology, clinical features, investigation and management.
6. Long answer question : (1×20=20)
12 years old boy under gone a injury of Fall onto an Outstretched hand. Discuss differential diagnosis for the same. And write any one in detail.
7. Long answer question : (1×20=20)
Discuss in detail about Chronic Suppurative Otitis Media with its aetio-pathology, clinical features and management.

1. Write short answer (**any ten out of fifteen**) :

(10×2=20)

- a) Define scald.
- b) Define Lipoma.
- c) Define Carbuncle.
- d) Define Keloid.
- e) Enumerate symptoms of Dry Gangrene.
- f) Define Fibroadenosis.
- g) Define Thyroiditis.
- h) Enumerate types of Amputation.
- i) Define Cardiogenic Shock.
- j) What is Cardio Pulmonary Resuscitation ?
- k) Types of Cataract.
- l) Define Glaucoma.
- m) Define Leucoma.
- n) Define Exophthalmos.
- o) Define Iridocyclitis.

2. Write short answer (any four out of six) :

(4x5=20)

- a) Trophic Ulcer.
- b) Difference between Carcinoma and Sarcoma.
- c) Indications of Blood transfusion.
- d) Toxic nodular Goitre.
- e) Squint.
- f) Internal Hordeolum.

3. Write short answer (any four out of six) :

(4x5=20)

- a) Hodgkin's Lymphoma.
- b) Difference between Pyaemic and Pyogenic abscess.
- c) Difference between cerebral concussion and cerebral contusion.
- d) Fibroadenoma of Breast.
- e) Blepharitis.
- f) Differential diagnosis of Red eye.

4. Long answer question (any two out of four) :

(2x10=20)

- a) Define Varicose Veins. Discuss its aetiology, clinical features, clinical tests and complications for the same.
- b) Define and classify Haemorrhage. Write management of concealed Haemorrhage.
- c) Describe aetio-pathology, clinical features and prophylactic measures of Tetanus.
- d) Enumerate errors of Refraction and describe Myopia in detail.

Long Answer Question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1x20=20)

Define cyst. Describe types, classification, clinical features and complication of cyst.

6. Long answer question :

(1x20=20)

50 years male having 60 kg weight suffering from 30% burn due to household fire injury. Write in detail about its pathophysiology, metabolic effects and management.

7. Long answer question :

(1x20=20)

Define Conjunctivitis. Write its Classification, aetio-pathogenesis, clinical features and management of an epidemic conjunctivitis.

Third B.H.M.S. (New) Examination, Summer 2018
SURGERY AND HOMOEOPATHIC THERAPEUTICS – III

Total Duration : 3 Hours

Total

- Instructions:**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion** of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- A) Write down 2 drugs for dysuria.
- B) Write down indications of fluoric acid in Varicose veins.
- C) Write down Carbo-veg in shock.
- D) Write down Apis mellifica in burns.
- E) Write down Calc carb in lymphadenitis.
- F) Write down Indication of Iodum in goitre.
- G) Write down Chamomilla in Toothache.
- H) Write down Borax in Stomatitis.
- I) Write down Bryonia in synovitis.
- J) Write down 2 drugs for Bone tumors.
- K) Write down Rhus tox in Traumatic Iritis.
- L) Write down Indication of Cocculus in Vertigo.
- M) Write down Ammon-carb in Epistaxis.
- N) Write down Belladonna in Tonsillitis.
- O) Write down Kali-bich in sinusitis.

2. Write short answer (any four out of six) : (4×5=20)
- Write down Berberis and Iycopodium in Urinary complaints.
 - Write down Nitric acid and sulphuric acid in Ulcer.
 - Write down Urtica urans and Cantharis in Burns.
 - Write down kreosote and staphysagria in Dental caries.
 - Write down Calc-phos and Symphytum in fractures.
 - Write down Tellurium and Aconite in Otitis externa.

3. Write short answer (any four out of six) : (4×5=20)
- Write down China and carbo veg in Haemorrhages.
 - Write down Nat-mur and spongia tosta in goitre.
 - Write down Merc-cor and Baptisia in Pyorrhoea.
 - Write down Asafoetida and merc-sol in Osteomyelitis.
 - Write down Agraphis nutans and calc iod in Adenoids.
 - Write down causticum and drosera in Laryngitis.

4. Long answer question (any two out of four) : (2×10=20)
- Describe clinical features of appendicitis and explain role of Bryonia alba, Iris versicoloris and Belladonna in Acute appendicitis.
 - Describe the steps of "Root canal Therapy" in short and give indications of calcarea Flour and Fluoric acid in Fistula dentalis.
 - Enumerate local and systemic causes of Red Eye and give indications of Arnica, and Apis mellifica in Conjunctivitis.
 - Describe stages of Acute Otitis Media in short and Give indications of Ferrum phos and Capsicum in ASOM.

Long answer question (any one from Q.No. 5, 6 and 7) :

5. [Long answer question]

Define Haemorrhoids and describe clinical stages of haemorrhoids and give indications of Aloescocotrina, Aesculus and Collinsonia in haemorrhoids. (1×20=20)

6. [Long answer question]

Describe Factors affecting wound healing and Explain role of Arnica, calendula and silicea in wounds. (1×20=20)

7. [Long answer question]

Define Tonsillitis, Describe its types and clinical features and give indication of Lac-can and Lachesis in Tonsillitis. (1×20=20)

Third B.H.M.S. (2015) Examination, Summer 2018
**SURGERY – II (ENT, OPHTHALMOLOGY, ORTHOPAEDICS, DENTISTRY
AND HOMOEOPATHIC THERAPEUTICS)**

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) Do not write anything on the **blank portion** of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) All questions are **compulsory**.

As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Quinsy.
- b) Define Acoustic Neuroma.
- c) Define Scoliosis.
- d) Ganglia.
- e) Trachoma.
- f) Pterygium.
- g) Alveolar Abscess.
- h) Causes of Toothache.
- i) Bryonia in Epistaxis.
- j) Allium Cepa in Common Cold.
- k) Apis in Synovitis.
- l) Ruta in Ganglion.
- m) Euphrasia in Conjunctivitis.
- n) Hepar Sulph in Ophthalmia Neonatorum.
- o) Hamamelis for Bleeding after Tooth Extraction.

P.T.O.

2. Write short answer (any four out of six) : (4×5=20)

- Define Chronic Sinusitis. Discuss the causes and investigation in a case of Chronic Sinusitis.
- Discuss causes, clinical features and ^{complications} implications of Deviated Nasal Septum.
- Discuss causes of Delayed Union of Bones in Fracture.
- Discuss causes and management of Plantar Fasciitis.
- Discuss Refractory Errors.
- Discuss differential diagnosis of red eye.

3. Write short answer (any four out of six) : (4×5=20)

- Indications of China and Causticum in Tinnitus.
- Discuss Belladonna and Natrum Mur in Acute Sinusitis.
- Rhus Tox in Arthritis.
- Calcarea Phos in Fractures.
- Arsenic Alb in Lachrymation.
- Krebsote in Toothache.

4. Long answer question (any two out of four) : (2×10=20)

- Discuss causes, clinical features and complications of Chronic Tonsillitis. Discuss any three Homeopathic drugs for the same.
- Discuss vertigo. Discuss any three Homeopathic drugs for the same.
- Mention types of Fractures. Discuss any three Homeopathic drugs for the same.
- Discuss in details Glaucoma. Discuss any three Homeopathic drugs for the same.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question : (1×20=20)

Discuss in details Chronic Suppurative Otitis Media. Discuss any four Homeopathic drugs for the same.

6. Long answer question : (1×20=20)

Discuss in details Potts Spine. Discuss any four Homeopathic drugs for the same.

7. Long answer question : (1×20=20)

Describe aetiology, clinical features, complications and general management of corneal ulcer.

Third B.H.M.S. (2015) Examination, Summer 2018
GENERAL SURGERY AND HOMOEOPATHIC THERAPEUTICS – I

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.

As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) : (10x2=20)

- a) Sebaceous cyst.
- b) Carbuncle.
- c) Lipoma.
- d) Haemorrhoids.
- e) Mammography.
- f) Achasia cardia.
- g) Types of hernias.
- h) Cystitis.
- i) Baryta carb in glandular affection.
- j) Natrum sulph in head injury.
- k) Silicea in abscess.
- l) Name 4 remedies for U.T.I.
- m) Name 4 remedies for G.I.T.
- n) Name 4 remedies for Liver affections.
- o) Name 4 remedies for Reflux oesophagitis.

2. Write short answer (any four out of six) :

(4×5=20)

- a) Blood Transfusion
- b) Varicose Veins
- c) Malignant Tumors
- d) Hiatus Hernia
- e) Hydrocele
- f) Urethritis.

3. Write short answer (any four out of six) :

(4×5=20)

- a) Arsenic Alb in Gangrene
- b) Cantharis in burns
- c) Arnica in injury
- d) Colocynth in acute abdomen
- e) Apis mel in renal colic
- f) Belladonna in mastitis.

4. Long answer question (any two out of four) :

(2×10=20)

- a) Two drugs for breast tumors
- b) Two drugs for shocks
- c) Two drugs for retention of urine
- d) Two drugs for intestinal obstruction.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Long answer question :

(1×20=20)

Define Wound, types, clinical features, conservative management and 4 homeopathic drugs.

6. Long answer question :

(1×20=20)

Define appendicitis, aetiopathogenesis, clinical features, complications and 2 homeo drugs.

7. Long answer question :

(1×20=20)

Define Cholelithiasis, types, clinical features, complication and management with 4 homeo drugs.

Third B.H.M.S. (New) Examination, Summer 2018

1. Write short answer (any ten out of fifteen) :

(10×2=20)

- a) Define fistula.
- b) Define furunculosis.
- c) Four causes of delayed wound healing.
- d) What is risus sardonicus ?
- e) Define melanoma.
- f) What is secondary haemorrhage ?
- g) Define intermittent claudication.
- h) Define haemangioma.
- i) Define Buerger's disease.
- j) Define atherosclerosis.
- k) Define chemosis.
- l) Define astigmatism.
- m) Define ptosis.
- n) 2 causes of blindness.
- o) Define trachoma.

(4×5=20)

2. Write short answer (any four out of six) :

- a) Cold abscess.
- b) Pilonidal sinus.
- c) Raynaud's disease.
- d) Rodent ulcer.
- e) Allergic conjunctivitis.
- f) Myopia.

(4×5=20)

3. Write short answer (any four out of six) :

- a) Hypovolemic shock.
- b) Types of wound.
- c) Diabetic ulcer.
- d) Dermoid cyst.
- e) Acute dacrocystitis.
- f) Hypermetropia.

(2×10=20)

4. Long answer question (any two out of four) :

- a) Discuss tetanus in detail.
- b) Discuss in detail types of burns and mention rule of nine.
- c) Discuss in detail types of haemorrhage and its management.
- d) Discuss in detail xerophthalmia.

Long answer question (any one from Q. No. 5, 6 and 7)

(1×20=20)

5. Long answer question :

Define cyst, give its types, investigations and management.

(1×20=20)

6. Long answer question :

Define ulcer, give its types. Write difference between healing and non healing ulcer and its management.

(1×20=20)

7. Long answer question :

Discuss glaucoma with its classification, clinical features, complication and management.
